Dear Chris,

I would just like to thank you for your coaching sessions we have had here at The Bend It Shape It Company Limited.

During the last 18 months of coaching it has greatly enhanced the way the business is run on a day to day basis and has given the company and myself a clearer vision for the future.

I originally brought you in as a business coach to see how we could increase turnover, improve the organisation in terms of what I want from the business and its employees, with your help the business has changed and it is more focused on results, productivity is up, sales have increased with less time wasted so I can concentrate on moving the business forward. In particular I really found the coaching on personal profiling extremely useful and made me understand how to get the best out of employees.

I would personally recommend Ology to other business leaders, the style and approach really makes you stop and think about the bigger picture rather than concentrating on the now, and would have no hesitation in working with you as a coach in the future.

Yours sincerely

David Miller, MBA  
Managing Director
