Dear Steve,

**DYNAMIC PROFILING WORKSHOP**

I'm just writing to let you know how glad I am that I sent Vikki and Eileen on the Dynamic Profiling workshop that you ran recently.

They have both come back enthused by experience the and ready to apply the principals learned in their everyday work. As an additional benefit to both them and me the individual profiles produced as a result of the workshop will greatly assist me in the assignment of work and in their development within this business.

I heartily recommend that all employers should send their staff on the course as well as attending themselves!

With best wishes.

Yours sincerely

**Christopher Wright**
